

My beautiful presentation

Romain Madar

July 2018

Overview

1 First section

2 Very poor second section

First section

My first slide of the first section

This is the content of the slide called 'My first slide of the first section'.

This will be a second slide in section 'First section', without title.

My second slide I

This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’`

My second slide II

This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’` This second slide can be very long, it will be splitted among various slides thanks to the attribute `‘.allowframebreaks’`

Very poor second section

Conclusion and outlooks

pandoc is great to actually create article, webpage and slides from the same markdown file.
